

Empowering families.
Fighting Duchenne.

CERTIFIED DUCHENNE CARE CENTERS

DO YOU ATTEND A CERTIFIED DUCHENNE CARE CENTER? Jett Foundation recommends that individuals and families affected by Duchenne consider visiting a **Certified Duchenne Care Center**. If you are not receiving care by one of these medical institutions, please make sure to bring the **Duchenne Care Guidelines** (available parentprojectmd.org/care/care-guidelines/) to your current physician. PPMD's Certified Duchenne Care Center Program helps to ensure that centers comply with the standards of care and services that have been established in the Duchenne Care Guidelines.

Below are a list of all PPMD's Certified Duchenne Care Centers in the United States. All medical institutions have met the requirements for, and agree to provide, optimal standardized care and services. **If you have any questions about any Certified Duchenne Care Center, please contact Jett Foundation at info@jettfoundation.org or PPMD directly.**
