RARE DISEASE DAY 2024

SPONSORSHIP OPPORTUNITIES

Jett Foundation welcomes your support and attendance for our 7th Annual Rare Disease Day event. Jett Foundation will be recognizing Rare Disease Day with a panel discussion highlighting members of our community who are living life to the fullest, fulfilling their dreams, and conquering goals. We are excited to welcome back Kyle Bryant and Sean Baumstark from the *Two Disabled Dudes* podcast to facilitate our conversation. Thanks to the support of sponsors, this event is free for families affected by Duchenne.

If your company is interested in sponsoring this event, please see our sponsorship options and email maura@jettfoundation.org for additional details.

PREMIER RARE DISEASE DAY SPONSOR | \$5,000

MAKING AN IMPACT WITH YOUR SUPPORT

JETT FOUNDATION PROGRAMS

Funds raised as a result of Rare Disease Day have an impactful reach, far beyond February's awareness event. Sponsors not only help us ensure the success of our event, but also directly impact families through the following programs and initiatives throughout the year:

CAMP PROMISE

Camp Promise offers fun, innovative activities that teaches campers life skills and introduces campers to new experiences through adaptation, technology, creativity, and special guests. We pair campers one-to-one with a counselor who serves as the camper's buddy for the week and helps them enjoy camp fully, while ensuring their needs are being met. Camp Promise programs include **overnight sessions** (when safe), **virtual summer sessions and year-round programming**, and **18+ retreat camp sessions**.

EDUCATION

Through our educational programming initiatives, we empower those in the Duchenne community with the knowledge needed to be their own best advocates, spread awareness about Duchenne in the medical field, and help accelerate research and development. We cover a broad range of topics from an introduction to Jett Foundation direct-service programs to standards of care and available clinical trials and treatment options. We do these by offering day-long **family workshops**, live hour-long community **webinars**, and **educational packages** all free for individuals, families, clinicians and others impacted by Duchenne across the country that provide crucial information, support and resources.

INDEPENDENCE

Jett Giving Fund provides much needed financial assistance to individuals and families impacted by Duchenne in need of a helping hand. Health insurance often won't cover all specialized medical and accessibility equipment such as scooters, shower chairs, ramps, rotational beds, and accessible vans—items needed when tackling a progressive neuromuscular disorder like Duchenne. Without these necessities, those with Duchenne struggle to participate in the kinds of activities that most people take for granted. The two branches of the Jett Giving Fund provide financial support to qualifying individuals and families impacted by Duchenne living in the United States for accessible vehicles, emergency situations, and medical equipment.

FAMILY SUPPORT

Our **Community Ambassador** program empowers individuals, parents, grandparents, and others impacted by Duchenne across the country to be spokespeople on behalf of Jett Foundation. Ambassadors assist our team in educating others impacted by Duchenne through **parent support groups**, providing feedback to our pharmaceutical partners, and raising much needed funds for Jett Foundation programs.
